

InspectSec8™

Improving Section 8 Housing through Inspections

InspectSec8™, Mobizent's mobile in-field inspection solution provides an automated method to consistently and effectively collect and maintain Section 8 Housing inspections.

InspectSec8™, Mobizent's innovative Mobile Inspection Solution, is customizing the way inspection Housing Authorities perform inspections such as building, electrical, plumbing and for specific Section 8 requirements.

With InspectSec8™, inspectors can perform field inspections electronically, eliminating the need for paper forms, clipboards and avoid re-entry of data. In addition to standard data capture, InspectSec8™ not only provides the answers required for Section 8 Inspection, but also provides the ability to capture drawings, pictures and images including signatures. InspectSec8™ eliminates the need to remember complex codes, and HUD requirements by automating the entire task with pull-downs and online searches.

Field inspectors can automatically synchronize remotely using wireless technology or synchronizing when required. InspectSec8™ provides the ability to review or lookup previous inspections on demand and standardizes the way an inspection report is written. It also provides the management and control of properties to meet new HUD requirements for property management. The solution is not only supported on

smartphones and tablet front-ends but also provides a complete and feature rich back-office solution to manage the inspections. Section 8 Inspections are critical to the success of most Housing Authorities and may have required approval cycles and roll-up reports to meet the critical time-based HUD requirements. Designed to run on most Mobile Devices, including smartphones, tablets, laptops or ruggedized handhelds, InspectSec8™ provides highly sophisticated service modules that intelligently work together to allow users to monitor and control inspections, from a call center solution to scheduling and mapping locations needed for maintenance and inspection personnel.

InspectSec8™ is a cost-effective solution that reduces the amount of time spent on manual inspections and manual reporting by requiring users to capture all the HUD information correctly and can provide approvals on the electronic device or back-office website.

InspectSec8™ ensures that the entire inspection process is streamlined, from the initial entry of the information through the reporting and data collection analysis, to ensure that Housing Authorities save time and money.

Features of InspectSec8:

- Integrated Section 8 required fields
- Capture photographs, signatures & sketches
- Easy entry from multiple devices
- Full reporting and exporting abilities
- Advanced security features (signature validation)
- Customizable to authorities requirements

Benefits of InspectSec8:

- Simplifies and streamlines inspection management
- Reduces errors, re-work and paperwork
- Ensures data integrity
- Enhances data analysis and visualization
- Increases productivity
- Integrates with department network
