

WorkOrderWorks™

Managing Housing Authorities with mobility

Mobizent's mobile work order solutions are used by Housing Authorities to issue, track and manage in real time critical tasks by their maintenance and inspection staff in the field.

WorkOrderWorks™, Mobizent's mobile property management tracking system, is used by Housing Authorities, Government Offices and companies to issue and track completion of Work Orders efficiently. Mobizent's software operates on Handhelds, SmartPhones and Tablets to automate work order issuance and remediation in the field that provides a quicker time to service requests, and allow housing authorities to track work completed against voucher applications.

automates the reporting process in simple to use screens. WorkOrderWorks™ enables Workers in the field to accurately

and effectively complete, remediate and track Work Orders by entering information on the Handheld devices. Inspectors and Maintenance personnel are given the ability to select relevant information from pre-populated lists, which reduces time, effort and the potential for errors.

In addition the solution provides several comprehensive back-office applications to process the issued Work Orders. The back-office applications can easily integrate into agency and external databases and systems for data interchange

WorkOrderWorks™ ensures that the entire process is streamlined, from the initial entry of the information through the reporting and data collection analysis, to ensure that you save time and money.

with a Mobizent API.

WorkOrderWorks™ improves data collection, assists in enforcing standards, improves the efficiency and accuracy of inventory control, passively tracks your field workers, and eliminates the need to re-enter data into additional systems.

WorkOrderWorks™ is a cost-effective solution that reduces the amount of time spent issuing Work Orders, creates a secure record of the information and
